Holiday

In-house celebration

“The teacher of children up to six years of age knows that she has helped mankind in an essential part of its formation. [...] she is happy in the knowledge that in this formative period they were able to do what they had to do. She will be able to say: ‘I have served the spirits of those children, and they have fulfilled their development, and I kept them company in their experiences.’”

-Maria Montessori, The Absorbent Mind

26TH JANUARY
Happy Republic Day
